Playground and Library Community's Selection Criteria

In order for a community to be selected for playground and library construction the following criteria must be satisfied:

1. Land ownership – the designated land must be in the ownership or at least long-term use by the community;
2. The land must be big enough to accommodate at least one swing and one slide as well as 40ft container;
3. The land has to be in a close proximity to houses in densely populated area;
4. The land must be accessible by a 60ft articulated lorry;
5. The land should NOT be part of a school or in a close proximity to one, unless of course, it has been agreed to built the library on a school ground;
6. The community should have an established leadership, preferably CBO;
7. The community must form a library committee that is separate from the already established leadership;
8. The community must open the library's own bank account;
9. The community must provide labour for the playground installation and library construction;
10. The community must select at least five librarians that will work as volunteers;
11. The community takes on responsibility for minor repairs and maintenance and daily operation; and
12. The community must continue to engage with JBAC after the construction.
